REASONS FOR ALLOWANCE

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 1 April 2004 has been entered.

2. Claims 13, 16, and 18-20 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Although there are numerous ways to connect a valve plug head to a valve plug stem, the prior art of record does not disclose or suggest, in combination with the other recited limitations, the plug stem base having a plug stem base cavity; a plug head band fitted between said valve plug head and a recess in a side wall of the plug stem base cavity with the plug head band having a side fitted inside the recess in the plug stem base cavity, and a band retainer fitted over said plug head band; wherein the valve plug head has a generally flat surface extending across and located in the plug stem base cavity and having a general convex surface extending outward from said plug stem base and said plug stem base cavity and a fastener to hold the retainer to the valve plug stem.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
